## Introduction

Welcome and congratulations on your decision to learn how you can become a decentralized finance (DeFi) master!

“DeFi Revolution: How to Earn High Yields and Make Big Profits Starting Immediately” is a comprehensive MasterClass guide that shows you what to do to become a skilled DeFi USER.

This quick start guide will help you get familiar with your course ... point you toward all the bonus materials that you are entitled to ... and help you get poised to reap what promises to be some of the biggest gains that this exciting new sector offers.

Let's get right to it.

## Why DeFi, Why Now?

DeFi commonly refers to lending, borrowing or trading stablecoins and other cryptocurrencies.

Stablecoins are cryptos whose value is pegged to a “stable” real-world asset like the U.S. dollar.

- **That means no need for banks ... no minimum amount of capital is needed ... and there is no need to settle for the rock-bottom interest rates that the traditional financial markets offer.**

Let’s talk about stablecoins for a moment. (This will be important later.)

Some crypto investors use stablecoins as a place to store money within the cryptocurrency universe.

Many people simply leave that money alone, in between buying and selling other cryptos.

But these, like other cryptos, are a medium of exchange.

That means you can use them to make money while you’re storing them!

Unlike traditional savings vehicles, which don’t pay you much of anything these days ...

- **DeFi can help investors unlock Bitcoin-sized profit potential ... and potentially much more.**

That can help explain why DeFi ballooned from a \$21.6 billion industry in October 2020 to \$127.8 billion in October 2021.

There are some smart people out there projecting even bigger growth ... to \$800 billion in total value locked (TVL) in DeFi by the end of 2022 ... if its growth continues at its current pace.

That’s a potential tenfold explosion in assets from today’s levels!

## Total Value Locked (USD) in DeFi

[TVL\(USD\)](#) | ETH | BTC

All | 1 Year | [90 Day](#) | 30 Day

Source: [DeFi Pulse](#)

Think about that.

- **This is a \$100 billion-plus sector ... on its way to \$1 trillion and beyond.**

How far beyond?

Some estimate that, in just five years, the DeFi market could be 100 times bigger than it is today.

- **Why is it growing so fast?**

It's a combination of rock-bottom interest rates and yields ... coupled with a growing appetite for cryptocurrencies ... that's leading to more people investing money in it.

That means more liquidity ... and more to come.

Which makes now the ideal time to get in!

## 3 More Reasons Why DeFi Is Set to Revolutionize Finance

### *1. The Technology Is Revolutionary*

DeFi uses cryptocurrency and blockchain technology. That makes financial transactions completely anonymous.

- **It also cuts out the middlemen and lets people lend money or trade directly with each other, peer to peer ...**

Without the need for traditional banks, brokers or even exchanges!

### *2. Yields are Higher and, in Many Cases, Safer*

Unlike stocks and bonds, for example, you can earn extraordinarily high yields without the risk of a market decline that might harm your principal.

- **Plus, you're not subject to the whims of central banks, which dictate the effective rates that traditional financial institutions should charge.**

Nor are you likely to see \$43.8 billion or \$220 billion in global dividend cuts, like we saw during the Great Recession and the coronavirus panic, respectively.

In fact, when you know how to use the strategy we're about to cover, you'll discover how to identify yields that are as big as you feel comfortable going after!

### *3. A Massive Capital Shift Is Underway*

Inflation is rising. Yields on traditional "income" assets are not.

And interest rates, when they eventually go up, may only rise a quarter-point here and there over time. That's not enough to help most savers and investors meet their financial goals.

For these reasons and more, the DeFi industry is growing at blinding speed. So much so that that Worth magazine claimed in a 2021 headline that it is ["Minting the Next Class of Millionaires."](#)

But we should be clear: This is a new frontier in the investing world, and it's not necessarily easy to navigate on your own. But ...

- **With the training you'll get in this course, you'll see exactly how you can profit from this historic opportunity.**

That's because DeFi offers you a way to outperform the world's best hedge funds ...

Earn annual yields on digital currencies as high as 25%, 50% and even triple-digit yields ...

Minimize your tax burden and borrow money tax-free like the so-called one-percenters do ... and

You can do it without any exposure to market volatility, if you wish!

Here's how ...

## Introducing: The DeFi Revolution

The “DeFi Revolution: How to Earn High Yields and Make Big Profits Starting Immediately” is a first-of-its-kind MasterClass that shows you how you can “stake” your claim to profits — early and often!

You’ll learn all about this exciting concept from one of the world’s foremost DeFi educators, Chris Coney.

Chris is the founder of Cryptoversity, the world’s first online school for Bitcoin, cryptocurrencies and blockchains.

This DeFi MasterClass is the result of nearly seven and a half years — and thousands of hours — of hard work.

Not only from Chris’ own DeFi experience ... but also from the research, data and insights from our team of DeFi experts at Weiss Ratings.

- **This MasterClass has been designed to take the mystery out of the world of decentralized finance.**

Maybe you are used to traditional banks and online brokers and have yet to set up your first crypto account. Or maybe you are fluent in crypto — at least, in the possibilities it holds — and you’re ready to hit the ground running.

Wherever you find yourself on your journey, Chris shows you everything you need to know to navigate this exciting new world.

So, if you are ready to:

- Discover how to generate 10% to 19% yields, for starters ...
- Get set up with all the tools you need to go for those profit opportunities ... and
- Start earning up to 134 times more interest than the average bank money market account ...

Then this program is for you!

In this course, we will stick to Ethereum (ETH) to give you this DeFi foundation. This network “supported the DeFi sector almost single-handedly in 2020,” according to Entrepreneur magazine.

But there are other entire DeFi ecosystems to explore. And you’ll be able to implement what you’ve learned here to navigate those with greater ease.

## **What’s Inside**

This training program includes five MasterClass modules, each devoted to a major DeFi opportunity or topic.

Chris breaks down each module into 30 separate video sessions.

These sessions are short (about five to seven minutes on average). In each, he walks you through exactly how to:

- Set up and fund your crypto wallet to use DeFi.
- Connect to decentralized exchanges (DEXs).
- Earn interest on your stablecoins and other cryptocurrencies.
- Yield-farm — a unique method that gives you the opportunity to beat some of the world’s best hedge fund returns.
- Stake! Think of this almost like earning interest while your stablecoin or variable-price coins sit in your wallet.
- Borrow money using DeFi platforms so you can get cash without having to sell your crypto holdings. (This could help you reduce your taxes as well.)
- Spot DeFi coins with high-growth potential and avoid potentially bogus investments.
- And much more.

You could devote a single weekend to this course. Or you could learn at your convenience, taking a few days more to watch — and rewatch — these sessions.

The best part?

- **You don't have to wait until you've finished this course to get some yield pouring into your pocket!**

Whether it's a bull market, bear market or sideways market, the knowledge in the DeFi Revolution package you've purchased will give you the tools to start building wealth right away.

Now, here's ...

## How to Log in and Access Your Course Materials

We've designed a comprehensive five-module course exclusively for our DeFi Revolution students.

You can access it here:

<https://weissratings.com/en/courses/defi-revolution>

Click the "Sign In" button in the upper-right corner.

Enter your username and password to log in.

**Your username is your email address.**

**Here's how to find or create your password:**

- *If you currently subscribe to another Weiss Ratings publication, you can use your existing password.*
- *If you are setting up your account for the first time, or if you've forgotten your password, simply click on "Forgot Password."*

Be sure to choose a strong, secure password that includes a capital letter, digit and special character.

And remember, this is your course — you will be able to revisit it online as often as you like, for as long as you wish.

**If you need help logging in, contact our Weiss Crypto Specialists.**

- Simply call 877.934.7778 (overseas: +1 561.627.3300) Monday through Friday from 8:30 a.m. to 5:30 p.m. Eastern.
- You may also email us anytime at [cryptosupport@weissinc.com](mailto:cryptosupport@weissinc.com).
- Be sure to bookmark this address, too:  
[defirevolution@eml.weisscryptoratings.com](mailto:defirevolution@eml.weisscryptoratings.com)

That's because Chris will be sending you an email from that address in the coming days, to make sure you have everything you need to succeed on your brand-new DeFi journey.

## **Bonus Videos: Discover This DeFi Supercharger**

As a supplement to this course, you also get Chris' DeFi Supercharger training videos.

Most DeFi platforms use the Ethereum network. But Ethereum transaction fees can often be high.

If you use the Polygon (MATIC) network or the Binance Smart Chain (BSC) network instead, you could transact for pennies instead of hundreds of dollars.

This short series of videos shows you how that's possible ... and the difference it could make in your net results.

[You can watch those DeFi Supercharger videos here.](#)

## **5 MORE Bonuses Are Also Waiting for You Online**

The Celsius Network is probably one of the simplest DeFi platforms to use. That's why we've also created a report that walks you through the steps to set up an account there.

Click below to access it now:

### **[DeFi Turbo Yields: How to Earn 134x More Interest as Soon as Next Monday](#)**

We think you'll be pleased with the process, and even happier when you see those "turbo yields" coming into your account each week.

Plus, you also have immediate access to four more reports ...

- **[The Next DeFi Millionaire-Maker](#)**
- **[DeFi BlueChip No. 1: The NYSE of DeFi](#)**
- **[DeFi Blue Chip No. 2: The Bridge Between the DeFi World and the Real World](#)**
- **[DeFi Blue Chip No. 3: The Largest Money Market in DeFi](#)**

Armed with all this information ...

Your five-module, 30-video DeFi Revolution course ... your DeFi Supercharger videos ... and five bonus reports ...

You'll be well on your way to discovering that there are few things more exciting than watching high DeFi Yields showing up in your crypto wallet.

If you have additional questions or would like to learn about more ways to invest in cryptocurrencies, feel free to contact your Weiss Crypto Specialists.

You'll find their information on page 10 of this guide.
